MOPOSA

Create your *perfect* wedding

www.moposa.com

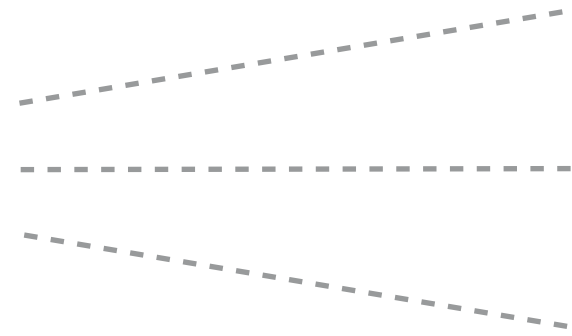

Guest List, Seating Plan,
a Wedding Website just
for you. Moposa has tools
that make creating your
perfect wedding simple
and fun.

Make Facebook your Guest List

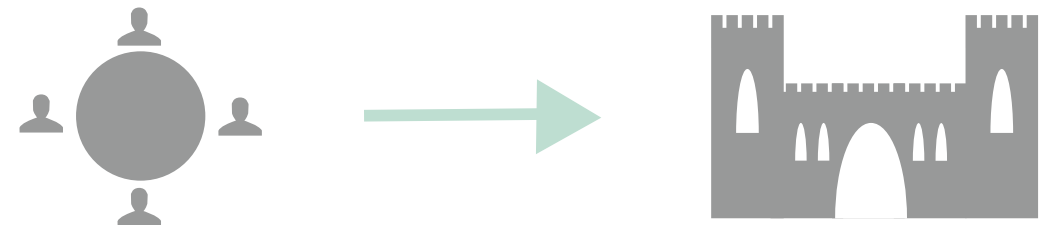

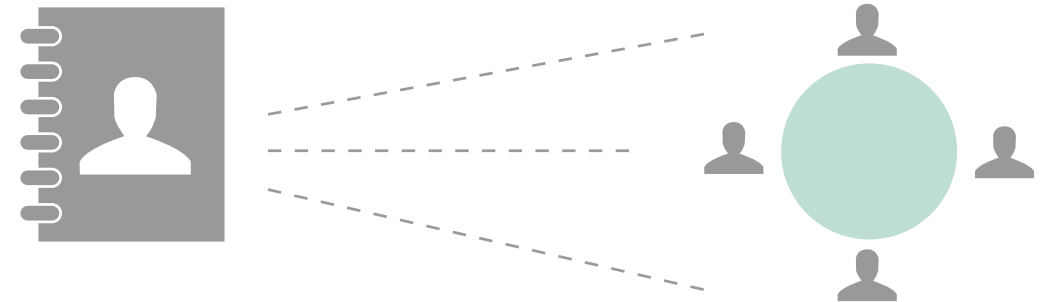

With Moposa you can use all the information you've already stored to get your Guest List started in seconds. Import friends from Facebook, send free online invites, receive RSVPs, and save you and your guests lots of time and money.

Create a Seating Plan with your Venue

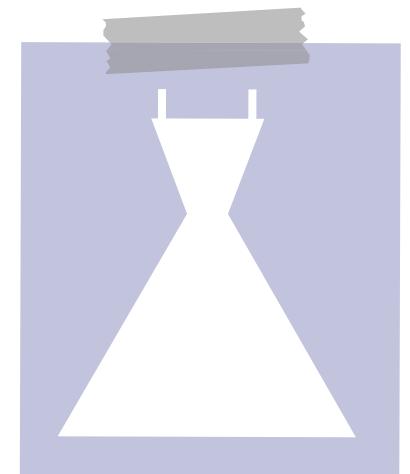

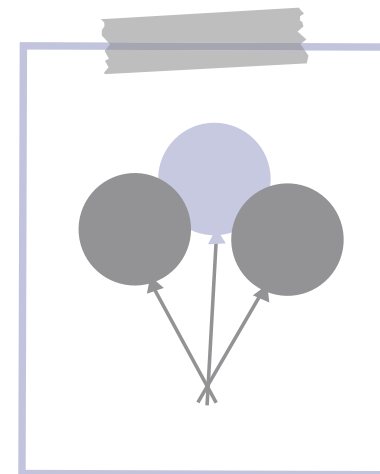

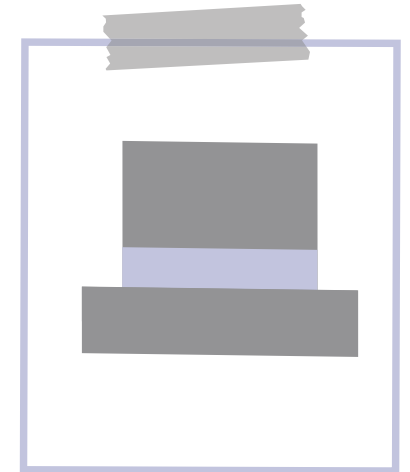

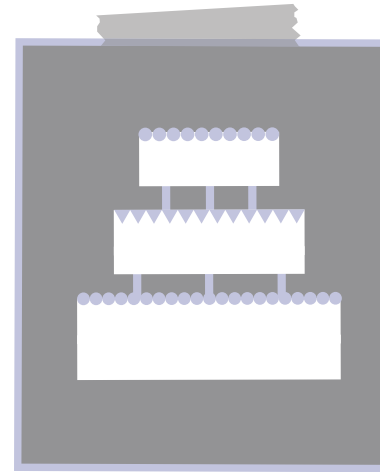

Moposa's unique Seating Planner syncs directly with your venue. Use all your Guest List details to seat your party in an online version of your banqueting room. Drag and drop guests until you find the perfect combination and Moposa will send it straight to your venue for use on your wedding day.

Browse 1000s of images to create your perfect wedding Look

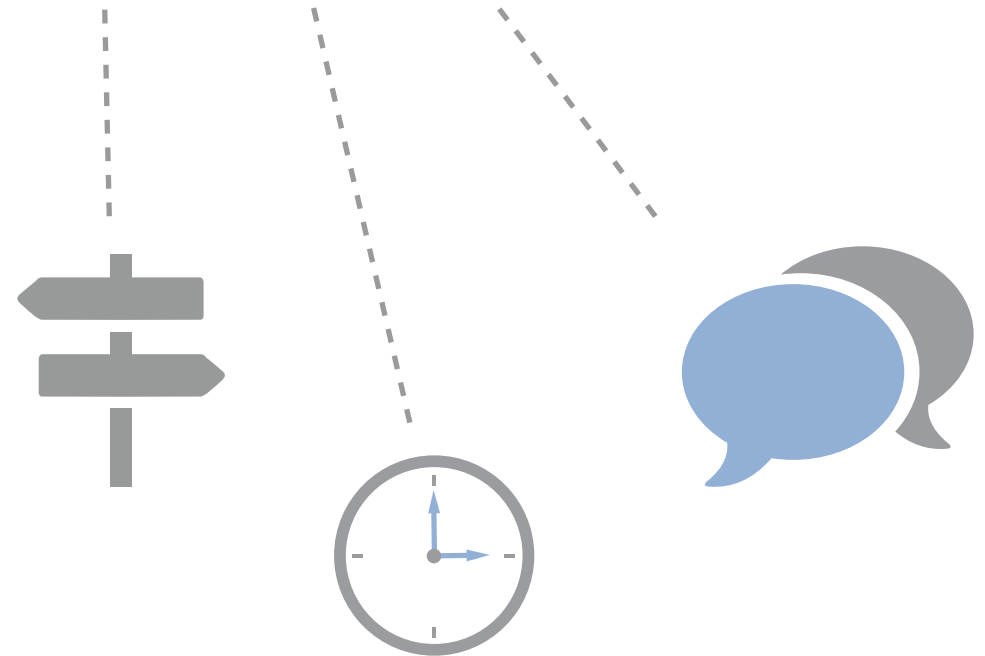

✂ The Look is Moposa's inspiration stream, filled with thousands of images from thousands of brides. Snip and collect your favourite images in your personal Lookbooks. You can keep all your inspiration secret, share it with your groom, or show our brides your perfect wedding Look.

Share more with Guests with your personal Wedding Website

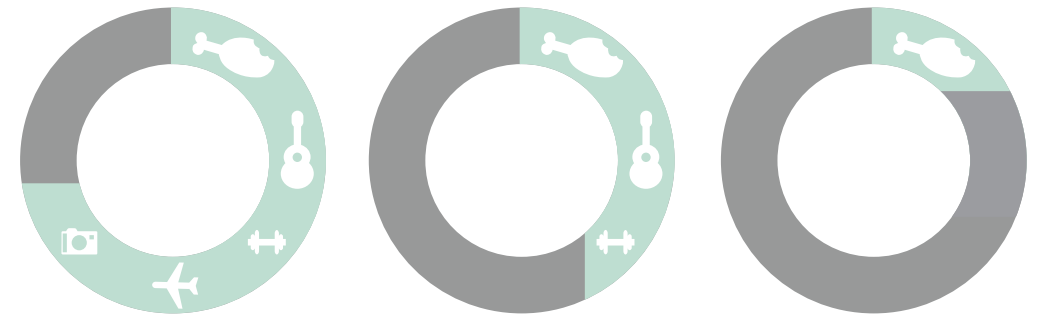

With so much to tell your guests – dates and times, directions, meal choices, dress codes – it’s difficult to squeeze everything into one invitation. Thanks to your personal Wedding Website you have lots of space to share everything you need, from photos and memories to essential details.

Save time and money with Budget and To Do

  Managing money and staying on top of tasks is simple thanks to Moposa's online tools. Get an instant breakdown of all your costs and use our tracker to manage payments. Our To Do list shows you exactly what you need to do at every stage of your planning.
